#### *Research and Grant Management Suite* also manages:

- Level of commitment and effort reporting—matching salary charges with effort, allocation to correct grant, no over-commitment of effort and effort in proportion to other duties
- Direct and indirect charges—administrative and clerical salaries
- Cost transfers—allowability, documentation and timeliness
- Cost sharing—tracking and allocating
- Export controls
- Monitoring the conflicting financial interests of clinical investigators
- Human subjects—protection of privacy, confidentiality of data
- Graduate student compensation—tuition remission
- Grant closeout

*“The *Research & Grant Management Suite* has been indispensable in my work as a billing compliance research analyst. It allows for quick access to coding, reimbursement, and regulatory information within a single resource. I particularly like the ability to obtain LCD, NCD, CPT® Assistant, CCI edit, and CMS transmittals for a given CPT/HCPC code with a single search. This often saves me hours of research on a variety of websites to obtain the same information.”*
