

# MediRegs® ComplyTrack Audit Detail Manager™

Proactively manage all facets of the claims-based audit process.

*Audit Detail Manager* is engineered specifically to handle the high-volume, time-sensitive, and complex workflow needed to satisfy record requests from audit bodies and process determination letters, as well as to navigate the rebuttal and multi-tiered appeal process. The robust capabilities of *Audit Detail Manager* allow you to:

- Maintain audit trails for all correspondence, detailing claim-level tracking from initial request through multiple levels of appeal
- Focus the efforts of audit response teams on the overall process, eliminate redundant manual processes, and document the audit impact for facility management and board members
- Detect, analyze, report on, and predict trends using standard and customized reports for every level of detail throughout the process

Designed to put you in control of the complete audit life cycle, *Audit Detail Manager* provides the flexibility to manage audit requests from Recovery Audit Contractors (RACs), Medicare Administrative Contractors (MACs), the Medicaid Integrity Program (MIC), Zone Program Integrity Contractors (ZPICs), or commercial payer audits.

EHR has validated the MediRegs ComplyTrack Audit Detail Manager with EHR technology and reporting.

EHR has validated the *ComplyTrack Audit Detail Manager* with EHR technology and reporting.

*Audit Detail Manager* offers optional *ADM Connect* for clients who need fully automated workflow with EHR.

Integrate the *Audit Detail Manager* with the following *ComplyTrack* modules:

- *Activity & Event Manager*: Track and manage anticipator and simultaneous audits to preemptively measure dollars at risk. Also provides features to manage process remediation in the event of large take-backs.
- *Survey Manager*: Features tools to perform audits of any type across your organization with our flexible and robust toolset. Proactively regulatory alerts to key personnel about key changes when they happen.
- *Risk Assessment Manager*: Assess and identify key areas of risk across your entire enterprise—before an enforcement body challenges you.
