

The ultimate tool for research on domestic pharmaceutical compliance policies and regulations

FDA Manuals
and Guidance

Drug Product
Information

Enforcement
Documents

MediRegs' **Pharmaceutical Regulation Suite (PRS)** is the most robust resource for finding answers to pharmaceutical compliance questions in the United States and European Union. Keep up with the FDA's approval and enforcement activities in connection with thousands of drug and biologics products and companies. **PRS** provides access to an unparalleled spectrum of documents from several government agencies, including thousands otherwise available only through painstaking and protracted Freedom of Information requests. Through a partnership with FOI Services, Inc., MediRegs is now able to provide access to the most comprehensive collections of Summary Bases of Approval, EIRs, 483s and Warning Letters on the market.

The **Pharmaceutical Regulation Suite** gives you quick access to the most complete collection of regulatory and pharmaceutical compliance policies possible, including some not available on the Web. Resources span many agencies and document types.

- Code of Federal Regulations – Twelve titles, updated continuously

- Enforcement materials, including access to FOI Services
- Comprehensive collections of EIRs, 483s and Warning Letters back to the 1970s
- ANDAs and NDAs: Summary Bases of Approval back to 1964
- Legislation, including U.S. Code and public laws
- Federal Register back to 1991
- FDA and NIH manuals and guidelines
- FDA forms, press releases, FOI logs and other publications
- Monthly product approvals, Orange Book and product data
- Many other important documents and resources

Quick access to data

The **Pharmaceutical Regulation Suite** allows you to get all the information you need using a single set of integrated, robust search tools. Easy Web links, extensive archives and fast searches save time and connect you quickly to key regulatory information.

- Automatic daily updates
- Easy searches from a single location
- Fast, easy-to-use search tools

The *Pharmaceutical Regulation Suite* is available on the Internet and is updated daily. Subscription to *PRS* includes e-mail alerts containing new information and access to the complete Federal Register back to 1991.
